WHAT'S GOING ON.

FIVE MINUTES WITH THE BIG NEWS OF THE WORLD.

The British Advancing Toward Pretoria.--Pension Legislation.--Philippine Affairs.--Populist National Convention.--Porto Rican Decision

The grand movement of the British toward Pretoria has begun and thus far has been attended with success, but the Boers have not attempted any defense so far, merely falling back to ground more favorable to their operations. The British are advancing in two columns, one by Brantford, following the railway, and the other by Winburg, which has been occupied. The latter force is trying to keep the Boers who were operating east of Bloemfontein from joining their main body further north. Gen. Roberts has advanced his headquarters as far as Smaldec, while his cavalry has reached the Zand river, on the north of which the Boers are in force, prepared to dispute his forward movement. We shall hear of hard fighting soon. At Warrenton, the British have effected a crossing of the river, forcing the Boers to retire, which opens the way to an advance toward Mateking. The news of the past week is favorable to the British.

Gen. Garcia, next in rank to Aguinaldo among the Filipinos, has been captured. Aguinaldo is said to have joined Gen. Tubb and forces are moving against him. American garrisons are being constantly attacked, and the approach of the wet season finds the island in a very disturbed state. Gen. MacArthur has succeeded Gen. Otis, who has sailed for home.

The House passed without dissent the pension law amendments favored by the G. A. R. They provide for aggregating disabilities under the act of 1890 without regard to service origin and to increase the net income a widow may have without destroying her right to a pension, from \$96 to \$250. The Senate had already passed the bill.

The Populist national convention meets at Sioux Falls, S. D., this week. The nomination of Bryan is a foregone conclusion. A candidate for vice president may be named, or the convention may leave it to a committee to endorse the nominee of the Democrats, if it is acceptable, if not, to name a man who is.

Judge Lochren of the United States circuit court rendered a decision at St. Paul, Minn., in a case which involved the political status of Porto Rico, in which he held that the island was a part of the United States and the constitution extended ex proprio vigore.

The question of armor plate for war vessels is held up in the Senate, pending the reported invention, by an American officer, of a shell which has proven its ability to pierce any armor yet submitted. The invention is being kept secret.

The Senate has passed the army bill, which makes many changes in the army organization. The artillery branch is entirely reorganized. The bill makes Gen. Miles lieutenant-general and Adjutant-General Corbin major-general.

Admiral Dewey and wife have visited St. Louis, Memphis and other points the past week and have been received with great enthusiasm. The political significance of the trip is well understood.

A warm fight is on in the House over the oleomargarine bill introduced by Congressman Grout, which places a heavy tax on oleo when it is colored to resemble butter.

C. F. Neeley, ex-treasurer of the postoffice department in Cuba, who embezzled toward \$100,000 of government funds, has been arrested in Syracuse, N. Y.

There is a big strike of trolley men in St. Louis and some rioting and violence. Most of the other strikes in the country have been settled during the past week.

Gov. Pingree of Michigan, who has been a sort of independent Republican, announces that he will act with the Democrats this year.

Two islands in the Samoan group have lately requested that the American flag be raised over them, which has been done.

Hon. William C. Endicott, secretary of war during Cleveland's first administration, died at Boston Sunday.

The Mallory line steamship pier at New York was burned Sunday; loss, \$1,000,000. One life was lost.

Every Democratic convention thus far has endorsed Bryan and every Republican convention McKinley.

The trade journals report lower prices and increased dullness in business, but nothing alarming.

It is thought that the victims of the recent mine explosion at Schofield, Utah, numbered about 300.

The House passed the Nicaragua canal bill last week by a vote of 225 to 35, after a stormy debate.

There are three cases of small-pox in the Windsor; Montreal's finest hotel.
